

Summit

Summit is a Job and Day Training Habilitation service for adults with intellectual and developmental disabilities. Our program sites are located in North Las Vegas and Henderson.

Summit has been providing quality day training and habilitation services since 2003. Our program is uniquely tailored to the individuals, while our enhanced staff ratio ensures success for those with complex needs.

Our effectiveness can be attributed to our commitment to excellence, commitment to working with the individuals with challenging behaviors, and our positive, proactive approach to working with the individuals we support.
